LAKSHMI THIRUPATHAMMA GOPU

+91 8688273656 | lakshmithirupathamma169@gmail.com | LinkedIn | GitHub | Guntur

PROFESSIONAL SUMMARY

Motivated Computer Science student with a strong foundation in JavaScript, React.js, Node.js, Express.js, REST APIs, and SQL/PostgreSQL. Have good knowledge of coding and problem-solving, with an interest in software development and full-stack development. Eager to learn new technologies, work on real-world projects, and contribute effectively as a Software Developer.

TECHNICAL SKILLS

Programming Languages: C, Java, Python, SQL
Frontend & Frameworks: HTML, CSS, JavaScript, ReactJS, Node.js, Express.js
Databases & Platforms: PostgreSQL, MySQL, MongoDB, GitHub, VS Code — Basic knowledge with an interest in learning and improving further.
Libraries: React Hooks, React Router, Pandas, NumPy, Scikit-Learn, Matplotlib — Good understanding of their basic usage and practical applications.
Core Skills: Core Skills: REST APIs, Middleware, Async/Await, OOPs, Data Structures & Algorithms, API Development, Cloud Basics.
Soft Skills: Problem Solving, Team Collaboration, Communication Skills, Analytical thinking, Troubleshooting, Technical support, Quick Learner.

EDUCATION

- **B.Tech in Computer Science(IOT)** **2023-2027**
  Vasireddy Venkatadri Institute of Technology, Namburu. CGPA-7.8
- **Higher Secondary (Class XII)** **2021-2023**
  NRI Junior College, Guntur- 94%
- **Secondary (Class X)** **2020-2021**
  ZPH School, Narakoduru- 99%

INTERNSHIP

AI & Data Science Virtual Intern | Horizon TechX | May 2026 – June 2026

- Strengthened skills in Artificial Intelligence, Data Science, problem-solving, and emerging technologies through a virtual internship.
- Improved technical and analytical skills while working in a collaborative environment; received a Certificate of Completion and Letter of Recommendation.

Prompt Engineering for AI Virtual Intern | Edu Skills | June 2026 – August 2026

- Developed and optimized effective prompts for generative AI models to improve response accuracy, relevance, and consistency across different use cases.
- Applies prompt engineering techniques such as role-based prompting, few-shot prompting, and iterative prompt refinement to solve AI – based tasks efficiently.

PROJECTS

AI Resume Screening | Python, NLP, Machine Learning, Streamlit

- Developed an AI-based resume screening system using NLP and semantic similarity to match resumes with job descriptions and rank candidates based on relevance.
- Built a Streamlit interface to extract candidate skills, education, and experience, providing automated matching and skill-gap analysis.

AgroZone – A Crop Advisory System | Java, Flutter, Firebase, MySQL, IoT, REST APIs, Machine Learning

- Developed a smart crop advisory application using Java, Flutter, Firebase, and MySQL, providing farmers with data driven crop recommendations.
- Integrated IoT sensors, REST APIs, and Machine Learning to analyze soil and environmental data and provide real-time crop and pest management suggestions.

Online-E-commerce-Website | HTML, CSS, JavaScript, ReactJS, Nodejs, Java

- Developed a responsive e-commerce website with user authentication, product management and shopping cart features.
- Built an interactive frontend using ReactJS and integrated a Java backend for smooth functionality and optimized performance.

CERTIFICATIONS

1. Data Analytics with python - NPTEL
2. GEN AI – Algo University
3. Beginner DSA - CodeChef
4. AWS Cloud – AWS
